*Indicates mail order available

We have included this short list of vendors to help you as you look for habitat plants. This is not a comprehensive list, but includes those who carry monarch safe (pesticide free) milkweed and/or native plants. You can also contact your local nursery to ask about their stock. If you know of a monarch safe milkweed vendor that is not listed, please let us know as we are looking to improve our resources. Email Michaela Rogers at michaela.rogers@ky.gov or call 502-564-3400, extension 4573. Thank you!
